

Master of Science in Medical Physiology

Preparing for Medical or Dental School?

This NEW program is ideal for students looking to improve their academic credentials and learn the foundational content of the first-year medical school physiology curriculum.

This program is the only one of its kind in Georgia.

Key Benefits:

- Two-semester course-based program.
- Core curriculum in physiology mirrors the learning objectives of first-year medical school.
- Opportunities to engage in biomedical research and explore career paths in biomedical science.
- Instruction by faculty currently engaged in medical and graduate school teaching.
- Personalized advising for academic support, personal growth, and career development.
- Workshops for the development of professional school applications.

Virtual and In-Person Information Sessions Available!

*Registration required
