Update in Cardiovascular Disease Management for Primary Care Providers

October 29 - 30, 2016

Presented by Augusta University
Medical College of Georgia
Division of Cardiology
Department of Medicine
and the
Division of Professional and Community Education
NEW LOCATION
J. Harold Harrison, MD Education Commons
1301 R.A. Dent Boulevard
Augusta, Georgia

Join us on the Medical College of Georgia campus in the new educational commons building.

SPECIAL NEEDS
The Division of Professional and Community Education at Augusta University complies with the Americans With Disabilities Act. If you require special services, facilities or dietary considerations (vegetarian or otherwise) to support your participation in this continuing education program, contact the conference coordinator at 800-221-6437 or 706-721-3967.

COMFORT ZONE
Although every effort is made to have a comfortable temperature in the meeting room, we realize everyone’s comfort zone is different. Please bring a jacket or light wrap in case the room is too cool for your comfort.

Division of Professional and Community Education

John J. White, MD, Professor of Medicine, Division of Nephrology
At Augusta University Division of Cardiology, we recognize the multidisciplinary nature of the care of the patient with cardiovascular disease. Specialists critically involved in the diagnosis and treatment of heart and vascular patients include Hospitalists, Internists, Family Practitioners, Anesthesiologists, Podiatrists, Nurse Practitioners, Physician Assistants, CRNAs and Nurses. Accordingly, this case-based and clinically oriented course is designed to help you:

- Discuss the latest advances in medical and invasive therapy for patients with heart and vascular disease including stroke.
- Review advanced approaches to the care of patients with congestive heart failure.
- Address the latest approach to patients with carotid artery disease.
- Examine the latest guidelines in the care of patients with acute coronary syndromes and myocardial infarction.
- Review contemporary management of patients with venous disease including pulmonary embolism and DVT.
- Participate in case-based learning exercises focusing on evidence-based care of patients with cardiovascular disease.
