Georgia Regents University, formerly known as The Medical College of Georgia, invites applications for the position of Chair, Department of Medical Laboratory, Imaging & Radiologic Sciences. The position requires an academic leader with excellent interpersonal skills to direct the efforts of an outstanding, collegial faculty within a research-intensive academic health center. This is a 12-month, tenure or tenure-track appointment. Academic rank and salary are commensurate with professional leadership record, scholarly activities, publications and health care experience. The responsibilities of the Chair include the following:

- Foster excellence in education and improve national recognition.
- Provide energetic leadership in support of the mission and goals of the university.
- Expand research growth and external funding.
- Facilitate growth of clinical faculty practice.

The University
Georgia Regents University (GRU) is a major academic health center and health sciences research university committed to improving health and reducing the burden of illness in society by discovering, disseminating, and applying knowledge of human health and disease. The Georgia Regents University values leadership, social responsibility, compassion, diversity, integrity, professionalism and excellence and aspires to become one of the nation's premier health sciences universities. The College of Allied Health Sciences plays a key role in educating students for the health professions, creating new knowledge and serving the community. The College has over 500 students, more than 70 full- and part-time faculty, and awards undergraduate and graduate degrees including a new PhD in Applied Health Sciences. For further details, please visit our website (http://www.gru.edu/alliedhealth).

The Department
The Department of Medical Laboratory, Imaging & Radiologic Sciences is one of eight academic units in the College of Allied Health Sciences. The Department consists of three nationally accredited professional programs, including Clinical Laboratory Science (both a BS and MHS program), Nuclear Medicine Technology and Radiation Therapy. The Chair reports directly to the Dean. The department is housed in a state of the art Health Sciences building with technology infused classrooms and laboratories for education and research. GRU graduates are prepared for academic and career advancements. Many graduates pursue advanced degrees and attain high-ranking positions in health care, academics, business and industry. Faculty practice and research partnerships are promoted within the university and area.

The Community
Nestled along the banks of the Savannah River, Augusta is the second largest city in Georgia. It is renowned internationally for its annual Masters Golf Tournament. Known as the ‘Garden City’, Augusta features picturesque and friendly neighborhoods, low cost of living, and plenty of cultural and recreational opportunities. It is a growing and thriving city which was recently ranked 22nd of the 367 U.S. metropolitan areas that Kiplinger's Personal Finance considered for its list of Best Cities for the Next Decade. Augusta has many diverse entities including The Augusta Opera Association, the Augusta Ballet, the Fort Gordon Dinner Theater, the Augusta Players, the Augusta Symphony, The
Morris Museum of Art and the Augusta Museum of History to name a few. Major metropolitan areas such as Atlanta and Columbia, SC are within a short driving distance, as are many scenic destinations, including the Blue Ridge Mountains and the Atlantic coast, and historic locations, including Savannah, GA and Charleston, SC.

**Qualifications**

Required qualifications include:

- Earned doctoral degree in health related fields.
- Demonstrated excellence in teaching and mentoring.
- An outstanding track record in funded research and innovation.
- National reputation to merit an initial academic appointment at the rank of Associate Professor or Professor.
- Documented record of successful leadership in an academic, industry or clinical setting.
- Excellent oral and written communication skills.

Preferred qualifications include:

- Professional certification in one of the clinical disciplines.
- Demonstrated excellence in mentoring faculty.
- Earned doctoral degree in disciplines related to the focus areas of the department.

Interested individuals should submit a letter of interest, curriculum vitae, and the contact information of three references to executivesearch@gru.edu. Inquiries, nominations and application materials will be received on behalf of the search committee co-chairs by:
