Historical Note:

The bulk of the Augusta University Health Sciences Campus Archives: Photograph Series comes from the Division of Communications and Marketing, formerly known as the MCG Institutional Relations Office and later as the Division of External Affairs. These photographs were used in the institutional publications The Beeper and MCG Today as well as course catalogs and other publications. These photographs are arranged as close as possible in the original order from the Division of Communications and Marketing. The several “Miscellaneous” files were categorized by the photographs’ subject matter.
The remaining photographs were accumulated by prior historical collections staff through donations from alumni and/or family and by transfer of archival material. Exact provenance of these photographs is unknown.

**Scope and Content:**

This photograph series includes class photos of the Medical College of Georgia and the MCG campus and buildings prior to 1950, including buildings that no longer exist. The aerial photographs began in the early 1950s and show the progression of the Health Sciences Campus in terms of expansion and buildings. There are photographs of students and faculty in learning environments as well as research and hospital settings. Class reunions and social events are included in the collection.

The hospital related photographs were taken when today’s Augusta University Medical Center was known originally as the Eugene Talmadge Memorial Hospital and then later as the MCG Hospital and Clinics.
