

Consent for Minor To Use Library

I hereby consent to allow _____ (the "Minor") to use the [Greenblatt] or [Reese] (choose one) Library at the Augusta University (AU). I understand that the library's collection includes legitimate academic materials regarding anatomy and sexuality which some may find offensive. In addition, I understand that library users may operate computer workstations with access to the Internet. Although it is against the law and AU policy to use the Internet for any illegal purpose, such as the distribution of obscene materials to minors, AU and its library staff do not monitor internet usage, and AU assumes no responsibility for any use of its computer workstations. I acknowledge that AU reserves the right to revoke library privileges to those who fail to follow the rules of the University Libraries, and to remove such persons if necessary. I will be responsible for any late fees or other charges imposed on Minor pursuant to the rules of the Library and for any damage to the library or its collection caused by Minor. I hereby release AU and the Board of Regents of the University System of Georgia, its members, officers, employees, and agents from liability for any and all claims or causes of action of whatever kind or nature, whether known or unknown, foreseeable or unforeseeable arising out of the Minor's library use.
