III. Event Debrief
   a. International Festival: Summerville Campus
      i. Pros: The festival was very fun and general consensus was that it was a very entertaining and educational event. They really enjoyed the lady with the Water Color Art. The food was very delicious from both vendors. The students also enjoyed the Henna and Sand Art.
      ii. Cons: One student said that they wished that there were more educational booths for students to visit so that there wouldn’t be long lines. Another student said that he/she wished that they didn’t have to so much to get a button for Henna or Sand Art. The music was outdated in the Ballroom. The ballroom was not big enough for the event, the students said they felt crowded. Another student complained about the fact that there were only 2 food options
