Data Submission Report for Community Based Faculty Preceptors:
Georgia Preceptor Tax Incentive Program (PTP)

Name of Preceptor: John Jones

TOTAL Number of Clinical Training Hours Reported to Date is Current Calendar Year: 735

Current PTP Registration Status is: Registered

Eligible academic programs have reported the preceptor named above in having completed the total number of clinical training hours as stated above in our tumor dataset reporting cycle. These hours are accrued for serving as a community-based faculty preceptor in rotation from eligible academic programs in Georgia. Please click the website at www.georgiaptp.com to view full explanation of the tax credit program, including eligibility of eligible academic programs and the calculation of the tax credit received. The tax credit is based on the current calendar year of the credits earned. The total eligibility for the tax credit program is based on the following:

1. The preceptor named herein serves as the community-based faculty preceptor in medical/surgical settings, obstetrics, pediatrics, hospital-based residents, ancillary or non-practitioner students from eligible academic programs in Georgia.
2. The preceptor named herein must earn an income of 100 hours at a community-based faculty preceptor level to qualify (must be involved in research activities) as stated above in the calendar year. These hours may vary up to 100 hours each calendar year.
3. The preceptor named herein has not received any compensation for his/her services or eligible students or the rotation of eligible students from eligible academic programs. Compensation for teaching cannot be received from any source to be eligible for the Georgia PTP tax credits.
4. The preceptor named herein must agree to supervise a preceptor as www.georgiaptp.com. If you are registering for the first time, you must do so by 12:31 to receive the tax credit for the current calendar year. This is a custom registration. There is no need to re-register each year unless you update contact information.

The Georgia ADIC Program Office is charged with administering this program by the Georgia General Assembly. All inquires and questions on the treatment of eligible academic programs in Georgia are referred to us. The reports are submitted on a quarterly basis. If you have any concerns, please contact the program you have worked with in your area. There will then be a detailed report of the changes. The goal of the preceptorship program is to work together throughout the year to correct and make any necessary corrections immediately and not until the end of the calendar year to make adjustments.

All corrections and changes must be submitted by the academic program within the week of the preceptorship program. If you have any questions, please contact the program office at 708-224-6761.

Thank you for working with us and teaching our future providers in Georgia. Any questions?
