Data Submission Report for Community Based Faculty Preceptors
Georgia Preceptor Tax Incentive Program (PTIP)

Name of Preceptor:
John Armce

Total Number of Clinical Training Hours Reported to date in Current Calendar Year:
736

Current PTIP Registration Status is:
Active

Eligible academic programs have reported the preceptor named above as having completed the total number of clinical training hours as listed above in our most recent reporting cycle. These hours are accrued by serving as a community based faculty preceptor for students from eligible academic programs in Georgia. Please visit the website at www.augusta.edu/preceptor to view full explanations of the tax credit program, including listings of eligible academic programs and of the monetary value of the credits earned. In brief, eligibility for the tax credit program are based on the following:

1. The preceptor named herein served as the community based faculty preceptor to medical / osteopathic students, physician assistant students, and/or nurse practitioner students from eligible academic programs in Georgia.
2. The preceptor named herein earns one tax credit for every 160 hours of community based clinical training provided to students listed in number 1 above, within the calendar year. Preceptors may earn up to 10 tax credits each calendar year.
3. The preceptor named herein has not received any compensation for his/her supervision of eligible students or for supervision of students from non-eligible programs. Compensation for teaching cannot be received from any source to be eligible for the GA PTIP tax credit(s).
4. The preceptor named herein must be registered as a Preceptor at www.augusta.edu/preceptor. If you are registering for the first time, you must do so by 12/31 to receive the tax credit for the current calendar year. This is a one-time registration. There is no need to re-register each year unless your contact information changes.

The Statewide AHEC Network Program Office is charged to administer this program by the Georgia General Assembly, and as such, receives certified completed rotation information from all eligible academic programs in Georgia. We are asking you to review the training hours submitted to us from our last reporting cycle (these happen 3 times a year) and if you find any discrepancies please directly contact the programs you have worked with to resolve the issues. They will then submit a revised report if the data changes. The goal is for preceptors and programs to work together throughout the year to correct and make any necessary corrections immediately and not wait until the end of the calendar year to make adjustments.

All corrections and changes need to be submitted by the academic program within one week of you receiving this email, so please work with your programs to correct any issues you may have. No representation from you is attestating to the accuracy of the information submitted by the programs.

Thank you for working with us and teaching our future providers in Georgia. Any other questions? Please call 706-721-8331.
Rotations Submission Deadlines

- Rotations completed between January – May are due **June 1**.
- Rotations completed between June – August are due **September 1**.
- Rotations completed between September – December are due **December 15**.
