Augusta University Alumni Center
919 15th Street
Augusta, Georgia 30912

GUEST FACULTY

Jacquelyn Fried, RDH, MS, Associate Professor at the University of Maryland's Dental School is a graduate of the Ohio State University, earning a Bachelor's Degree in Political Science and a Certificate in Dental Hygiene. She earned her Master's Degree in Dental Hygiene from Old Dominion University. Ms. Fried has been a dental hygiene educator for 40 years and has served in every key programmatic administrative position during that time. Her speaking engagements, research and publications focus on the dental hygienist's role in preventing and stemming the use of addictive nicotine products, interprofessional education, scientific writing, and HPV and head and neck cancers. She is a prolific speaker, addressing health professional groups nationally and internationally. Active in the American Dental Hygienists' Association (ADHA), she has served on councils, ad hoc review committees, the Journal of Dental Hygiene's editorial review board and special task forces that addressed the advanced dental hygiene practitioner and tobacco prevention and cessation. She has received numerous teaching awards at her university and in 1997 was a Warner Lambert/ADHA Award for Excellence in Dental Hygiene recipient. Old Dominion University named her Alumni of the Year in 2011. In 2015, she was honored as one of Maryland's top 100 Women and, in 2016 she received the ADHA's Irene Newman Award.

Dental Hygiene Alumni Day

April 26, 2019

Carol Jahn, RDH, MS, has a BS in Dental Hygiene from the University of Iowa and an MS in Continuing Education from the University of St Francis. She has been a dental hygienist since 1982. Currently, she is the Director of Professional Relations & Education for Water Pik, Inc

COURSE DIRECTOR

Kandyce M. A'see, RDH, MS, Assistant Professor in the Department of Dental Hygiene at Augusta University. Kandyce received her Bachelor of Science in Biology at South Carolina State University and both her Bachelor of Science in Dental Hygiene and Master of Allied Health at the Medical College of Georgia. She worked as a hygienist in private practice for 2 years before becoming a Dental Hygiene Educator at Augusta University. Kandyce teaches in the clinical and didactic settings, as well as online. She also serves on various committees within the institution as well as participates in several community service activities.

SPECIAL NEEDS

The Augusta University Division of Professional and Community Education complies with the Americans with Disabilities Act. If you require special services, facilities or dietary considerations (vegetarian or otherwise) to support your participation in this continuing education program, contact the conference coordinator at 800-221-6437 or 706-721-3967.

COMFORT ZONE

Although every effort is made to have a comfortable temperature in the meeting room, we realize everyone's comfort zone is different. Please bring a jacket or light wrap in case the room is too cool for your comfort.

CREDIT

Attendance for the entire program is approved by Augusta University for 4.25 ADA CERP Hours. Florida License Continuing Education Credit Number is P00018.

PURPOSE

The purpose of this course is to provide Dental Hygienists with the continuing education they need to successfully provide preventive oral care.

OBJECTIVES

At the conclusion of the program participants should be able to:

- Describe national and global trends related to the incidence and prevalence of HPV associated head and neck cancers.
- Understand how characteristics of oral and oropharyngeal cancers differ.
- Discuss theories associating bacteria, inflammation, plaque biofilm and saliva with HPV positive head and neck cancers.
- Identify ways to enhance their current practices to address HPV associated head and neck cancers.
- Develop approaches to patient education regarding the prevention of HPV-associated head and neck cancers.
- Discover how putting employees first leads to enhanced patient care
- Discuss the difference between patient awareness and patient education
- Explain risk-based recommended intervals for prophylaxis, x-rays, and fluoride treatments
- Recognize the limitations of dental floss
- Identify the best strategies for caries management
- Examine the benefits of sealing over incipient decay
- Analyze the body of evidence on the water flosser and recommend it to appropriate patients
- Develop the confidence needed to implement these changes
