

DCG Distinguished Lecture Series on Evidence-based Clinical Treatment

Contemporary Approach to Complex Restorative Cases

Special Guest - Thomas R. McDonald, DMD

February 14, 2020

Presented by **The Dental College of Georgia Office of Research at Augusta University at the Snelling Center, Augusta, Georgia.**

AUGUSTA UNIVERSITY

**DENTAL COLLEGE
OF GEORGIA**

DESCRIPTION

Modern restorative dentists have a fantastic array of materials to utilize for restorative treatment. The combination of traditional principles with modern materials has completely changed the way that complex cases are approached. Dr. McDonald will outline a system for diagnosis and treatment sequencing of complex restorative cases through segmental restorative treatment with modern materials. This approach is more technically achievable for the clinician and laboratory technician and certainly more feasible for the patient.

OBJECTIVES

Following completion of this program, the participant should be able to:

1. Describe the diagnostic steps required for a complex restorative case
2. Develop a protocol for treatment staging
3. Recognize the benefits of segmental restorative treatment and long term provisionalization

CREDIT

The Dental College of Georgia at Augusta University is an ADA CERP Recognized Provider. ADA CERP is a service of the American Dental Association to assist dental professionals in identifying quality providers of continuing dental education. ADA CERP does not approve or endorse individual courses or instructors, nor does it imply acceptance for credit hours by boards of dentistry.

DCG Distinguished Lecture Series on Evidence-based Clinical Treatment

Contemporary Approach to Complex Restorative Cases

Special Guest - Thomas R. McDonald, DMD

February 14, 2020

ABOUT THE PRESENTER

Tom McDonald, DMD received his dental degree from the Medical College of Georgia School of Dentistry. He maintains a full time restorative practice in Athens, Georgia. Since 1983, Dr. McDonald has served on the faculty of Augusta University Dental College of Georgia (formerly Medical College of Georgia) as a Clinical Instructor of Restorative Sciences. A frequent lecturer in the area of occlusion, restorative dentistry, esthetics, and provisional restorations, Dr. McDonald has lectured and presented hands-on courses at most national meetings over the past 30 years. A dedicated clinician and teacher, he serves as an opinion leader for several dental manufacturers, publishes technique articles and webinars, and serves on the editorial review board of the Journal of Esthetic and Restorative Dentistry
