# Raymond P. Ahlquist, PhD

Department of Pharmacology

Medical College of Georgia

1944 – 1983

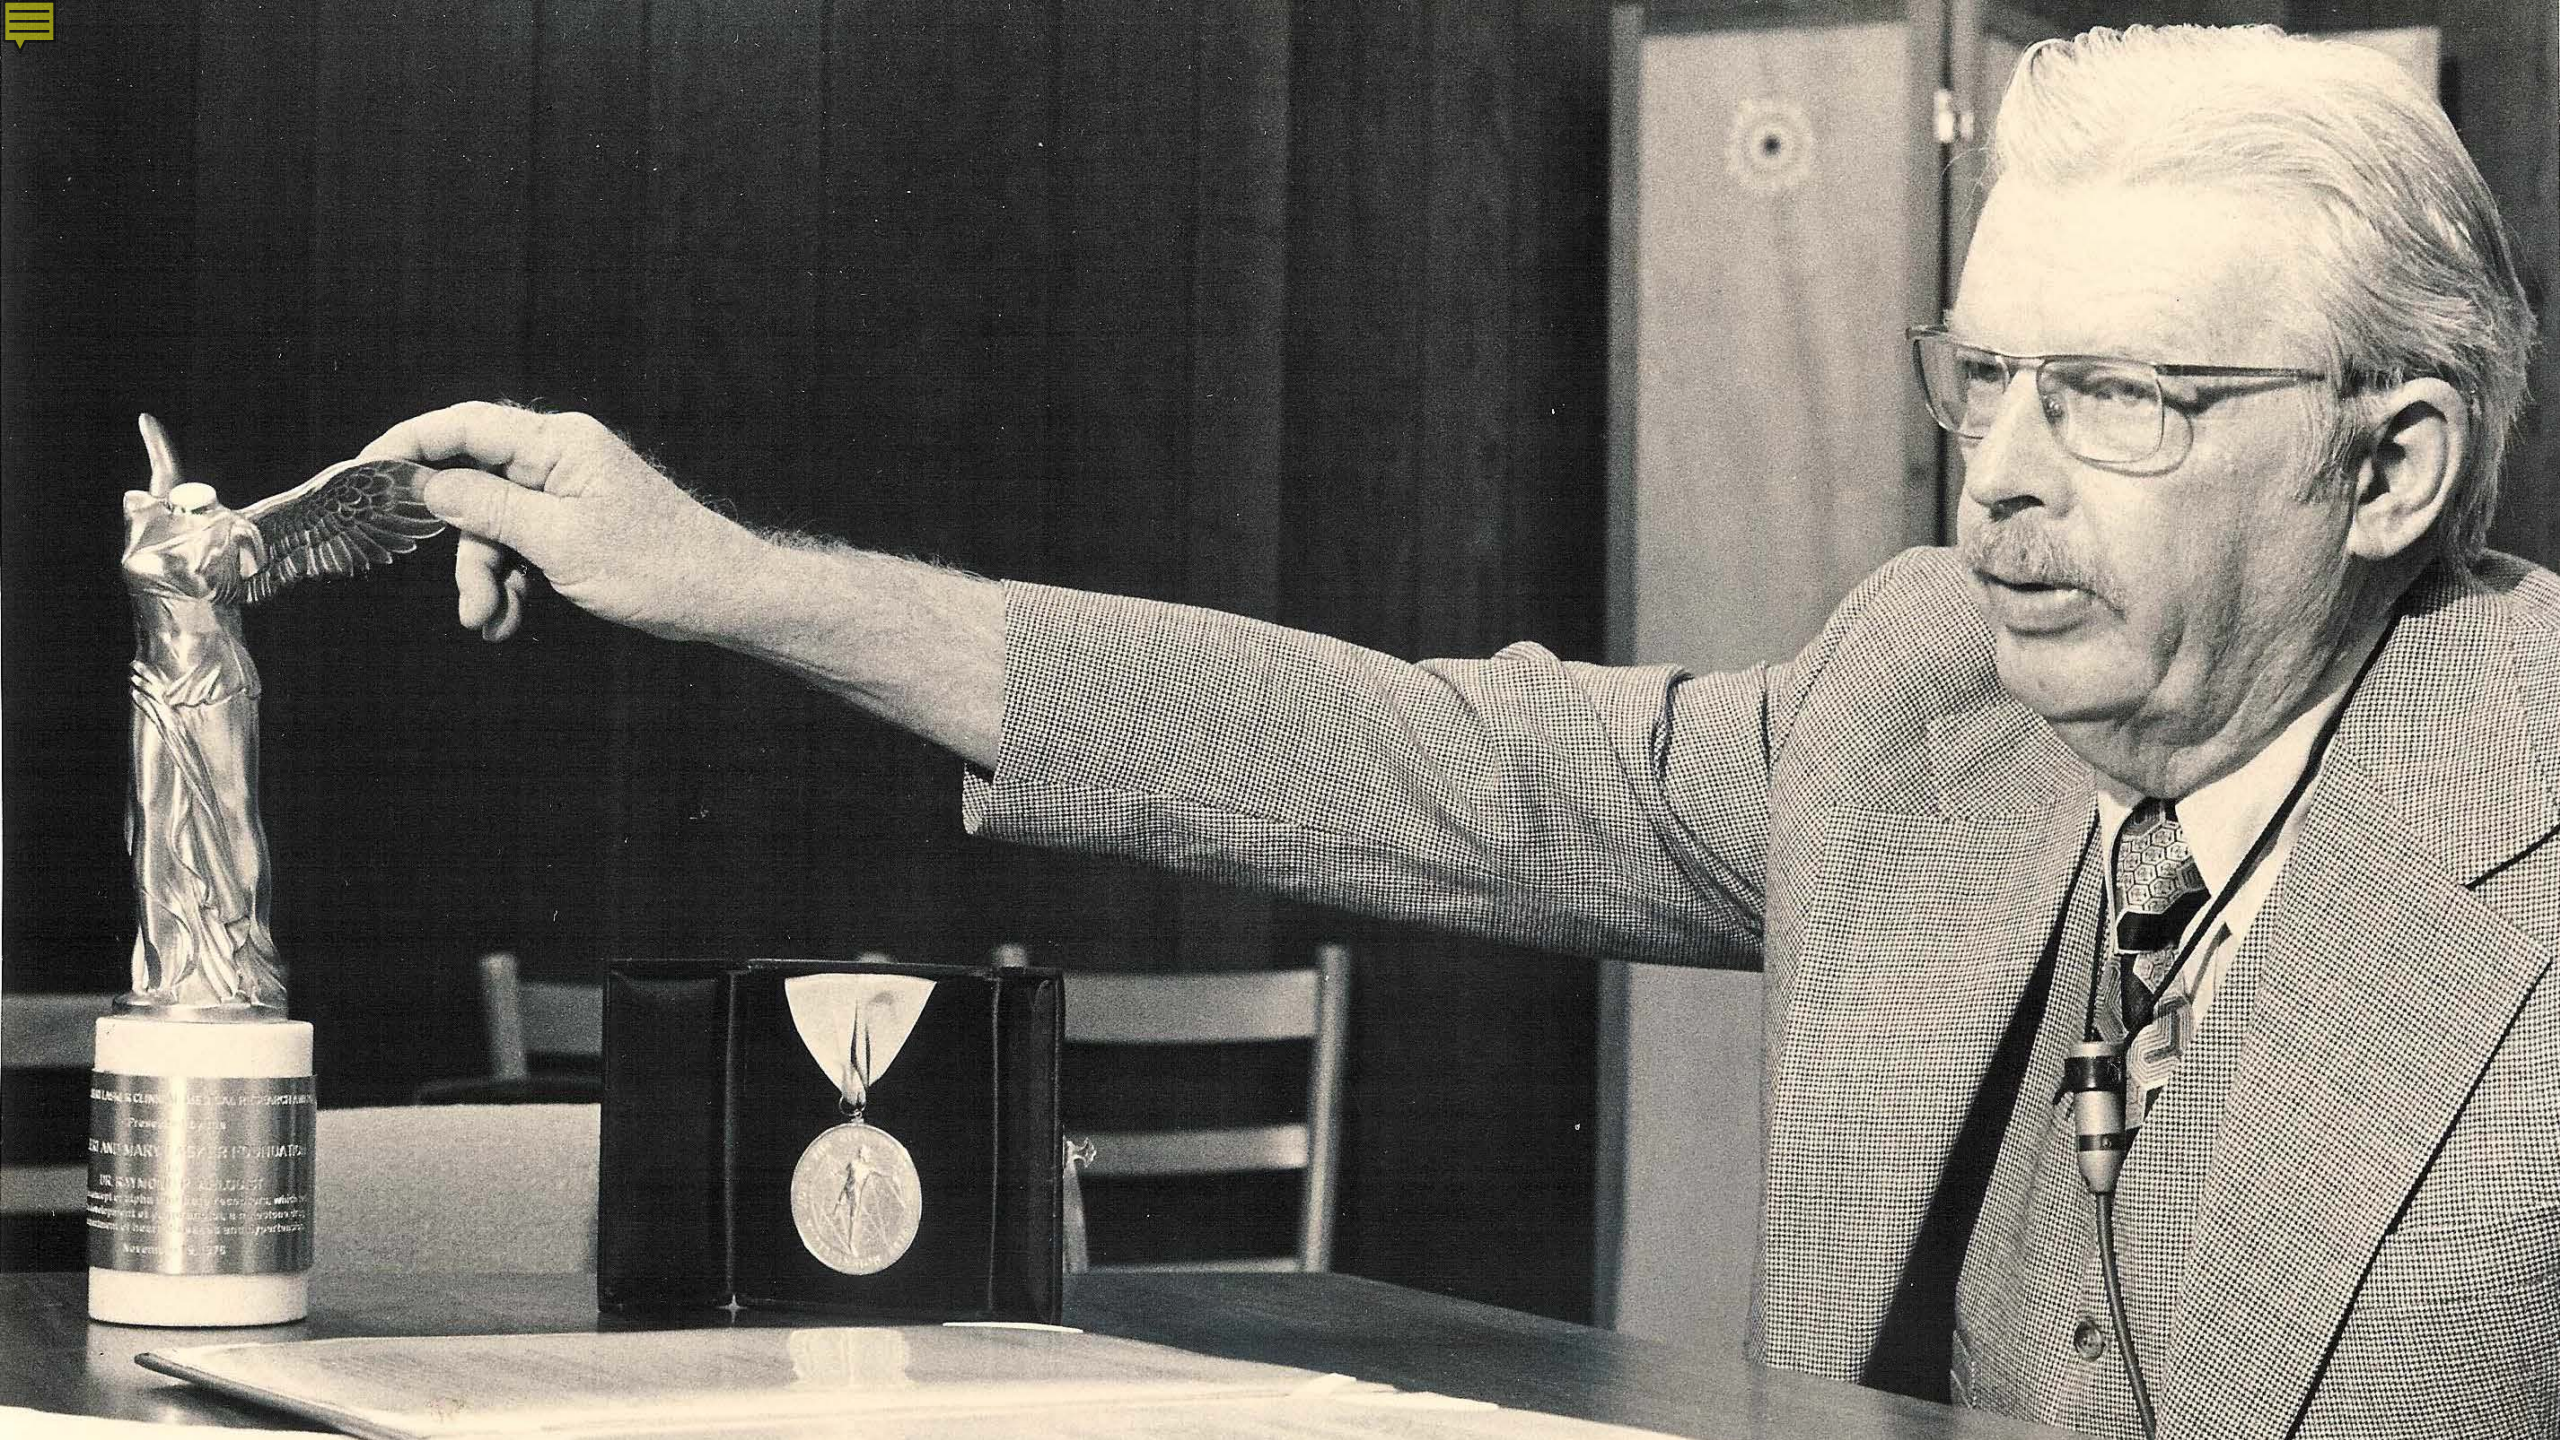

# Raymond P. Ahlquist, PhD

- Began his career at MCG in 1944 as Assistant Professor of Pharmacology
- Professor and Chairman of Pharmacology from 1948-1963
- Associate Dean of the School of Medicine and the Research Coordinator, 1963-1970
- Resumed duties as Pharmacology Chairman and Professor in 1970
- Charbonnier Professor of Pharmacology from 1977 until his death in 1983

WILLIAM S. CLINICAL MEDICAL RESEARCH  
Presented by  
ST. ANNE MARY HOSPITAL FOUNDATION  
DR. ROY NICHOLS, M.D. 1975  
November 19, 1975

# Raymond P. Ahlquist, PhD

- Authored over 200 scientific papers and served on the editorial board of several journals
- His paper hypothesizing his theory regarding alpha and beta adrenotropic receptors was published by the American Journal of Physiology in 1948 (153:586) because pharmacology journals rejected the paper
  - *Dr. William F. Hamilton, Chairman of the Physiology Department at MCG, was on the editorial board of the American Journal of Physiology and pushed for Ahlquist's paper to be published*
- Internationally recognized as the originator of the alpha- and beta-receptor concept of the adrenergic system
