

# Volunteers needed for long-term COVID-19 study

Researchers at Augusta University are conducting a research study to learn more about COVID-19 infection and immunity. The study is open to individuals regardless of past COVID status (by PCR or Serology) or vaccine status.

**STUDY REQUIRES VISITS EVERY 2-4 WEEKS  
FOR UP TO 1-2 YEARS**

---

## **PARTICIPANTS WILL:**

- Be asked questions about their health and personal information
- Have height and weight measured
- Have saliva collected every 2-4 weeks
- Have fingerstick blood taken or complete blood draws every 4 weeks

---

## **ELIGIBILITY REQUIREMENTS:**

- Be between the ages of 18-90 years old
- Weigh at least 110 lbs
- Not pregnant
- No bloodborne infectious conditions like HIV or Hepatitis C
- May have had prior COVID-19 infection or vaccine (but not required)

---
