Urologic Oncologist with 9 years of academic and clinical experience in Urologic Oncology and Minimally Invasive Surgery. I am currently heading the Center for Advanced Robotic Surgery at Georgia Regents Medical Center in Augusta, Georgia. I am also the Director of Urologic Oncology at the Department of Surgery.

Before moving to Georgia, I was heading the Center of Robotic Surgery at the prestigious Case Western Reserve University Hospital in Cleveland Ohio.

My area of expertise is Urologic Oncology and Robotic Surgery. I have pioneered some of innovative techniques in robotic surgery over the last years.

I strongly believe in a multi-disciplinary approach to urological cancer and in integration of clinical and translational research into clinical practice.
