Academic Standing for Undergraduate Students

Policy Manager: Office of the Vice Provost for Instruction

POLICY STATEMENT

Augusta University (AU) maintains required academic standards of performance for its undergraduate students. This policy describes those academic standards and the courses of action that can occur when these academic standards are not met. These include Academic Probation, Academic Suspension, Academic Dismissal, and Academic Renewal. This policy applies to students in all undergraduate programs at AU. It should be noted, however, that departments may apply more stringent academic standards than are outlined in this policy.

Academic standards for graduate and professional level programs are set by the individual colleges at AU.

DEFINITIONS

Academic Probation: The academic standing of any undergraduate student whose institutional grade point average (GPA) at AU falls below 2.0 (on a 4.0 scale). Being placed on academic probation or continuing on academic probation obliges the student to meet prescribed academic performance levels in order to continue at the University.

Academic Renewal: A policy that allows any undergraduate, degree-seeking student who has experienced significant academic difficulty to petition for one opportunity to make a fresh start.

Academic Suspension: A separation of at least one semester from the institution. *Academic*

Dismissal: A permanent separation of a student from AU.

Good Standing: The academic standing of any student not on academic probation, suspension, or dismissal. Unless otherwise specified for a particular academic program, this term applies to an undergraduate student whose institutional grade point average is 2.00 or higher.

Academic Renewal GPA: A revised institutional grade point average which begins when the student granted academic renewal resumes coursework at AU.

Next Review: 3/2028

Academic Standing: Academic standing refers to a student’s academic status at AU.

Institutional GPA: The institutional GPA is computed using the total number of GPA credit hours attempted at AU and the total number of grade points earned at AU (excluding courses numbered 0001-0999) after including only most recent grade for courses that have been taken more than once at AU and are not repeatable for credit.

Progression Level: The sum of all hours attempted at the university, plus all transfer credit hours attempted, plus all hours earned with grades that do not count in the GPAs, such as S and K. Progression Level is a rough measure of the actual amount of time the student has attended college.

PROCESS & PROCEDURES

1. Academic Probation, Suspension, and Dismissal

Any undergraduate student whose institutional grade point average (GPA) at the conclusion of any semester is below 2.00, shall be placed on academic probation or, will continue on academic probation and be subjected to the provisions of the suspension and dismissal policies described in subsequent sections of this policy. Undergraduate students at AU who are placed on academic probation must have their course schedules approved by their advisors prior to registration. They may continue to attend AU only if they meet the following minimum academic standards, which are based on progression level.

Credit Hours	Level Term GPA	or	Institutional GPA
0 -29	1.50		1.00
30 - 59	2.00		1.60
60 - 89	2.00		1.90
90 and above	2.00		2.00

Students who meet the Term GPA or the Institutional GPA requirement as specified above will remain on probation until their Institutional GPA is at or above 2.00, at which time they will return to good standing. Students who are on probation and fail to meet the minimum Term and the Institutional GPA requirements specified above will be suspended or dismissed (see below, “Academic Suspension”). NOTE: Some programs within the University maintain academic standards specific to their degree requirements which may exceed these basic requirements.

Academic Suspension

The mandatory minimum term of suspension shall be one semester. Students wishing to return to the University after a suspension must petition for reinstatement (see below “Appeal for Reinstatement”). If reinstatement is approved, the student will be placed on academic probation, and may be subject to additional conditions of continuation established by the University at the time of reinstatement. Should the probationary student achieve good standing, the student will be subject to the policy guidelines for students in good standing.

Appeal for Reinstatement

There is no guarantee of reinstatement from any academic suspension. Students suspended for academic deficiencies who complete the mandatory period of suspension may be considered for reinstatement. The student must submit a petition, in writing, at least 30 days prior to the desired semester of reinstatement. The appeal should clearly state the reasons why the student should be considered for reinstatement. Students should submit petitions to the dean of his or her major college, If the student does not have a declared major the petition should be submitted to the Academic Advisement Center. These students should submit petitions to the Director of Academic Advisement for reinstatement. If a student has been away from the University for more than three semesters (including summer), he or she must also apply for readmission through the Office of Academic Admissions.

Academic Dismissal after Reinstatement

Should the student not satisfy the conditions of continuation established after returning from suspension, he or she will be academically dismissed from AU. If dismissed, the student may be readmitted only after a successful appeal process which is outlined below. Students wishing to appeal a dismissal must follow the AU appeals process. Students may be readmitted only after successful appeal to the University or, if denied by the University, after successful appeal to the University System of Georgia Board of Regents (see USG BOR Policy Manual, Section 4.7.1, “Student Appeals”).

2. Academic Renewal

Any undergraduate, degree-seeking student who has experienced significant academic difficulty at AU may petition to have one opportunity to make a fresh start after an absence of three consecutive calendar years (nine semesters) from AU. The following procedures will be applied for students seeking academic renewal (excerpted from USG Board of Regents Academic and Student Affairs Handbook, Section 2.5.1):

I. Applying for Academic Renewal Status

Students are encouraged to apply for Academic Renewal status at the time of reenrollment or enrollment as a transfer student at AU. Students who do not request Academic Renewal at that time must do so within one calendar year after reenrollment.

Applications for Academic Renewal are made through the dean of the college housing the student’s major, If the student does not have a declared major the petition should be submitted to the Academic Advisement Center. These applications are made through the Director of Academic Advisement. Students who are denied academic renewal may petition after one calendar year (three semesters).

A student can be granted Academic Renewal status only one time.

II. All previously attempted coursework continues to be recorded on the student’s official transcript. In addition:

- Only coursework completed prior to the period of absence may be considered for

Academic Renewal.

- The Academic Renewal GPA will be used for determining academic standing and eligibility for graduation.
- To earn a degree from AU, a student must meet the institution's academic residency requirements after acquiring Academic Renewal status.
- Academic credit for previously completed coursework, including transfer coursework, will be retained only for courses in which a grade of A, B, or C has been earned.
- Retained grades are not calculated in a Renewal GPA. Such credit is considered in the same context as transfer credit, credit for prior learning, and courses with grades of "S."
- Courses with grades of D or F prior to the Academic Renewal must be repeated at AU if they are required in the student's degree program.
- Applicability of retained credit to degree requirements will be determined by the degree requirements in effect at the time Academic Renewal status is conferred on the student. Specific institutional program regulations must also be met.
- AU will accept transient credits for students with Academic Renewal status in accordance with current policy.
- The Academic Renewal GPA is not used to determine graduation with honors. In order to graduate from AU with honors, all attempted coursework from all institutions attended is used to calculate the final grade point average.

III. Undergraduate students who are transferring to AU or are returning to AU after a period of absence may be eligible for Academic Renewal.

Readmitted Students

Readmitted students may be eligible for Academic Renewal for coursework taken prior to the period of absence. Students must be absent from AU for three consecutive calendar years (nine semesters).

Transfer Students

Students who leave a regionally accredited institution of higher education and transfer to AU are eligible to apply for Academic Renewal. Only coursework completed three years or more prior to the enrollment at AU can be considered for academic renewal. Courses taken more recently than the period of eligibility are ineligible for consideration for Academic Renewal. However, transfer credit can be granted for coursework taken during this period in accordance with current AU policy.

In addition to the above conditions, students should note that:

IV. Any scholastic suspension that occurred in the past shall remain recorded on the student's permanent record. If a suspension is on the record and the student encounters subsequent academic difficulty after having been granted Academic Renewal, the next suspension subjects the student to dismissal.

V. Re-entry into any program is not automatic.

VI. The granting of Academic Renewal does not supersede financial aid policies regarding Satisfactory Academic Progress.

VII. The granting of Academic Renewal does not supersede the admissions requirements of certain Programs, e.g., teacher education and nursing, which require a specific minimum grade point average based upon all coursework.
