Process for Reports of Missing Students

Any student, faculty or staff who receives information that a student may be missing should report immediately the known information to Public Safety. Public Safety, with the assistance of Housing and Residence Life and/or the Office of the Dean of Student Life will conduct a preliminary investigation to verify the situation and to determine the circumstances which exist relating to the reported missing student. For each incident when a student is deemed missing, as defined within this policy, a designated point person will be established to ensure continuity of operations and that all necessary University officials are informed as information is received.

The following process should be used to locate students who are deemed to be missing:

1. A staff member will attempt to contact the student via his/her mobile telephone (if listed).
2. A text message will be sent, if applicable, requesting the student respond letting University officials know the student is safe;
3. A staff member will check the student's room and speak with his/her roommates or others in the residence hall that may have knowledge of the student's whereabouts. This may require a staff member to enter the room to conduct a health and safety inspection. A door audit also may be conducted to determine the last time the student entered using his/her student identification card;
4. A staff member should consult with the student's faculty and/or the Registrar to determine the last time the student was in class.
5. Any staff who may have had contact with the student because of general business, including the student's on-campus employer, or those who may be known to have had contact with the student in question should be consulted;
6. A staff member should determine the last time the student's ID was scanned at campus facilities, residence halls, library, and/or other locations, and check security recordings if necessary;
7. Check social networking sites to determine if the student has been communicating about his/her whereabouts;
8. Attempt to locate the student's vehicle on campus;

9. Public Safety should contact area hospitals and area law enforcement agencies for possible information;
10. If the whereabouts of the student are still unknown, a representative from Housing and Residence Life, the Dean of Student Life or his/her designee will work with Public Safety to contact the person listed as an emergency contact.
11. If contact cannot be made with the person listed as an emergency contact, the University may contact the student's parent(s), guardian(s), and/or another designated emergency contact.
12. If the whereabouts of the student are still unknown, Public Safety will coordinate with local law enforcement and continue to investigate using established police procedures. Any new information will be provided to appropriate staff in the Division of Enrollment and Student Affairs, including Housing and Residence Life.
13. A University-wide e-mail alert including the missing student's photograph may be sent to all faculty, staff, and students, if it is deemed necessary by Public Safety and the Division of Enrollment and Student Affairs.

If any of these steps provide an opportunity to speak with the missing student, verification of the student's state of health and intention of returning to campus should be made. Once the information is determined, it should be reported back to the University officials working on the case. A referral may be made to the University's Department of Student Counseling and Psychological Services, Student Health Services, or other medical agency, if needed. Once the student is found, the Department of Public Safety will be contacted to notify them of the student's state of health and well-being. The status of the student, including the student's intention to continue attending classes, may be communicated to various University officials, as necessary, to provide for the wellbeing of the student, and to provide opportunities for the student to be successful at the University.

Residential students expecting to be away for an extended period of time (more than 24 hours) during non-break periods should always let at least one person in the residence hall know of his/her whereabouts.
