Multicultural Affairs
Ms. Stephanie Perry, Director of Student Admissions and Diversity, DCG Diversity Officer
for Students - augusta.edu/dcg/diversity

Accreditation
The Dental College of Georgia’s DMD program is fully accredited by the Commission on Dental Accreditation of the American Dental Association.

Licensure Examination
All students are required to pass National Board Parts I and II examinations in order to graduate. Graduates of The Dental College of Georgia are eligible for examination by all U.S. dental licensing boards.

Patient Care
Students begin treating patients as early as their second year at DCG. Our dental students treated over 6,000 patients by appointment in 2017.

Research
The Dental Research Center, in collaboration with other units of Augusta University and the University System of Georgia, focuses on multidisciplinary research in the diagnosis, prevention and treatment of orofacial diseases. The Dental College of Georgia has an active student/resident research group whose success is evident in their awards, presentations and publications. Prospective applicants, who are interested in research, may apply to the STAR (Student Training and Research) summer program - augusta.edu/gradstudies/star.

Community Service
Dental students complete a required number of community service hours each year. They are responsible for securing their own locations for volunteerism allowing them the flexibility to serve where they really feel they can make a difference.

Student Organizations
augusta.edu/dcg/admit/organizations
Student organizations offer ways for you to get involved in volunteer opportunities, social events, cultural project, outreach and fundraisers. They provide networking education, entertainment and a sense of community outside of class.
