Frequently Asked Questions

What do I submit with the Professional Scholars supplemental application?
Guidance and specific instructions will be sent to qualifying students, but below is a general outline:
• Completed supplemental application
• One letter of recommendation
• Verification of lawful presence (if not submitted with undergraduate application)
• ZeeMee link (Link you can share on supplemental application)

What is ZeeMee?
The Professional Scholars Program at Augusta University is excited to partner with ZeeMee, a free service that helps students bring their applications to life. We are committed to reviewing every applicant as a unique individual. Qualifying applicants can simply copy and paste their ZeeMee link into the Medical or Dental Scholar supplemental application when released. Sign up today at ZeeMee.com!

When is the supplemental application due?
The supplemental application is due January 15. Specific instructions regarding submission of the application will be enclosed in the email communication to qualified students in mid-December.

Are out-of-state students eligible to apply for the Medical Scholars or Dental Scholars Program?
Yes, out-of-state students are eligible to apply; however, preference is given to residents of Georgia.
About Augusta University
Located in Augusta, Georgia, Augusta University is a public research university and medical center dedicated to training the next generation of innovators, leaders and health care providers. The combination of nationally ranked business and nursing schools as well as the state’s flagship public medical school and only dental school makes Augusta University a destination of choice for the students of today and the leaders of tomorrow.

About the Professional Scholars Program
Augusta University offers two specific programs, the Medical Scholars Program and Dental Scholars Program, which allow outstanding students the opportunity to achieve their Bachelor of Science (BS) and Doctor of Medicine (MD) or Bachelor of Science (BS) and Doctor of Dental Medicine (DMD) in only seven years. In each case, students will spend their first three years in pursuit of the BS in Cell and Molecular Biology through the Department of Biological Sciences in the College of Science and Mathematics. Students will begin their fourth year in medicine or dentistry through either the Medical College of Georgia or The Dental College of Georgia. Courses taken in the first year of those programs will be used to satisfy any remaining course requirements needed to complete the BS degree.

Minimum Qualifications
- 3.7 Academic grade point average in mathematics, English, science, social studies and foreign language coursework
- 1400 SAT Critical Reading & Math prior to March 2016 or the equivalent on the SAT after March 2016 and/or
- 32 ACT Composite
