

Laptop and System Requirements

The Dental College of Georgia considers it essential to train DMD students in the use of computers to prepare them for the practice of dentistry. While most students already own a computer with or without the laptop requirement, the requirement assures that all student computers meet certain minimum technical requirements. This consistency simplifies troubleshooting and support and assures a level playing field for all students in the program.

	PC	Mac
Operating System	<p>RECOMMENDED</p> <p>Windows 7 Windows 8 and 8.1 Windows 10 (Windows 10 S Not Supported)</p> <p>Note: Surface Pro tablets are allowed, however, other tablets (i.e. Surface, iPad, iPad Pro) are not. If a Surface Pro is used, the student must carry the associated keyboard. ExamSoft does not support an on-screen keyboard. <u>Contact the IT Service Desk</u> for any questions concerning more recent releases.</p>	<p>OSX 10.9 (Mavericks) or later including macOS 10.13 (High Sierra)</p> <p>Subject to Change according to University Standards.</p>
Processor	<p>MINIMUM</p> <p>Intel Core 2 Duo or i3 Processor</p> <p>RECOMMENDED</p> <p>Core i5 or i7 Processor</p>	<p>MINIMUM</p> <p>Core 2 Duo or i3 Processor</p> <p>RECOMMENDED</p> <p>Core i5 or i7 processor</p>

	PC	Mac
Memory	8 GB RAM or higher	
Optical Media	DVD ±RW (Optional)	
Virus and Spyware Protection	<p>Antivirus software is provided by the University. To access antivirus software please visit https://gru.service-now.com/kb_view.do?sysparm_article=KB0010407</p>	
Network	<p>Ethernet and Wireless 802.11g Note: some newer laptops do not have Ethernet ports, but it is necessary to have wired networking capabilities regardless. Be sure to keep an adapter with you (i.e. Ethernet to thunderbolt adapter)</p>	

Recommended Software:

Once you arrive on campus, you will be required to install the following software that will be provided to you at no additional cost. Orientation sessions will be available to walk you through the installation of all required software.

PC Laptops	Mac Laptops
<ul style="list-style-type: none"> • Adobe Reader (Latest version) • Symantec Antivirus software (Unmanaged) • Cisco AnyConnect (download prompt occurs when connecting to GRSecure wireless network) • Microsoft Office • Exemplify (can be found by logging into ExamSoft and clicking on the “Exemplify” tab. 	<ul style="list-style-type: none"> • Adobe Reader (Latest version) • Symantec Antivirus software (Unmanaged) • Microsoft Office • Exemplify (can be found by logging into ExamSoft and clicking on the “Exemplify” tab.
