

AU Literacy Center Goals

1

Provide services that assist individuals in learning to read, write and engage in content area reading (e.g. reading and comprehension skills related to specific subject areas such as mathematics).

2

Facilitate engaging literacy-based events for individuals, their families, and teachers to increase excitement about literacy.

3

Offer literacy-based workshops for families and educators. These workshops provide strategies, tools, interventions, and suggestions for connecting with their learners at home and at school.

4

Collaborate with CSRA schools to provide suggestions, resources, activities, and support to students with reading and writing difficulties including dyslexia and related learning disorders.

5

Serve as a key resource for Georgia's Tiered System of Supports for Students and Georgia Milestones enrichment preparation.

6

Provide experiential learning, volunteer opportunities, and credit offerings for AU students from all majors and the community-at-large.
