Professional Growth Plan
Assessment Instructions

Directions:

I.   Collect Evidence:
Collect evidence from multiple sources about your teaching progress. Consider the following sources including (but not limited to): self-assessment, university supervisor observations and evaluations, clinical teacher observations and evaluations, student assessment data, feedback on class assignments, dispositions evaluations, self-made survey data, GACE scores, edTPA scores, etc. Use relevant evidence that includes measurable and quantifiable data.

II.   Analysis:
Analyze this evidence looking for patterns and trends across different sources of evidence. Synthesize this data in order to find strength(s) and one or two area(s) of growth.

III.   Professional Growth Plan:
Develop an action plan to work on your identified area(s) of growth. Establish a goal(s) for your professional development. Identify specific strategies based on research and theory that will move you towards that goal(s). Complete the PGP template with detail.

For final submission: Write how your previous goals were or were not met in the narrative section of the PGP template.
