STUDENT INSTRUCTIONS: UNDERSTANDING YOUR AUDIT WORKSHEET

BACKGROUND INFORMATION

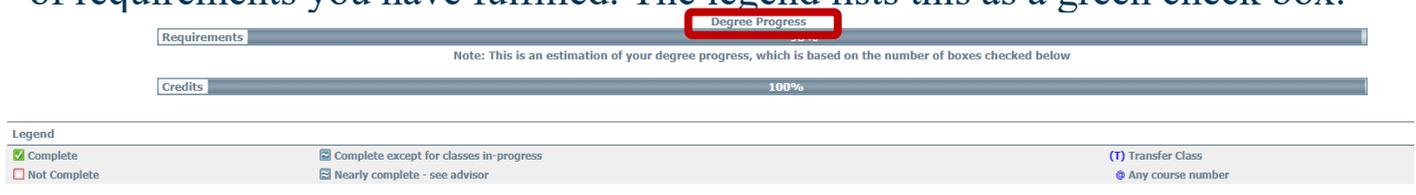

The JagTrax audit provides information about degree requirements. Your audit is a planning tool and not an official certification of graduation. Record changes will be reflected the next business day. Grades, including withdrawals, appear after the term is finished and grades are viewable. Official course substitutions/exceptions submitted by advising departments will be reflected on the audit.

JAGTRAX AUDIT FEATURES

- The **Student View** box contains basic student information, including your degree, major and concentration. Any holds you have will also be listed here.

- The **Degree Progress** bar is an estimation of completion based on the number of requirements you have fulfilled. The legend lists this as a green check box.

- The **Degree** box lists your program's components. Included are curriculum, residency and legislative requirements. Red boxes show incomplete work.
