

Vision coverage: See a clearer future

Healthy vision is important to your overall wellness. Vision coverage through EyeMed provides you with quality vision care at an affordable price.

If you choose vision coverage, you'll have access to EyeMed's wide network of providers, plus retail locations offering evening and weekend hours.

EyeMed vision coverage details

GETTING STARTED

- **Locate providers** at eyemedvisioncare.com/usg.
- **Make an appointment.** Whether you prefer an independent provider or a retailer with evening and weekend hours, there's an option for you in the EyeMed network. You can even schedule an appointment with a participating provider right from EyeMed's website.
- **Find out more.** Call EyeMed at 1-866-800-5457 or visit eyemedvisioncare.com/usg.
- **Get information on the go.** Download the EyeMed members app, available for iPhone and Android, at iTunes or the Google Play Store.

Pay less when you use in-network providers

The EyeMed network includes independent providers, as well as top national retail chains, such as LensCrafters®, Sears Optical™, Target Optical®, JCPenney Optical® and many Pearle Vision® locations. So, most employees will have access to local, in-network providers.

If your eye doctor is not in the EyeMed network, you will still receive reimbursements for covered services, but at the out-of-network level. The table on page 1 gives you an overview of EyeMed benefits.

You'll see that the plan covers preventive services (like an annual eye exam) and helps pay the cost of eyeglasses and lenses. There are benefits for contacts, too.

Things to consider

How do you decide if this plan is right for you? Start by asking yourself these questions:

- Does anyone in my family have or need glasses or contact lenses?
- What eye care expenses can I reasonably plan for in the coming year?
- How much have I typically paid out-of-pocket in past years for vision exams, eyeglasses and contact lenses?
- Should I consider using a Flexible Spending Account (FSA) or a Limited Purpose FSA to help pay for some or all of my out-of-pocket vision expenses with tax-free dollars?
