All policies other than Workforce Reduction were recommended for approval. Meeting consisted of further refinements of Workforce Reduction policy in conjunction with HR & Dr. Browder, which has been ongoing since Spring 2020.
vi. Governance and Communication (A. Gomez/N. Reese)

1. The Governance and Communication Committee met on September 3 and reviewed the proposed change to the charge of the GCC committee as proposed in the bylaws change to Appendix A (lines 1169-1202). The committee finds no inconsistencies at this time with this proposed change and the most recent update to the AUFS bylaws. The committee would like to reserve the right to be involved in senatorial elections to the colleges, as this is a daunting task for the AUFS secretary. The committee also suggests that the communication facilitation should not only be between the faculty and the senate, but also between the faculty and other units on campus, such as parking services.

She is especially interested in having the committee consider how to address the impact of COVID-19 on the promotion and tenure process as many faculty members have had teaching and research and scholarship activities affected due to limited access to labs, juggling home life with teaching and/or research, or inability to travel due to travel restrictions. We have also been tasked with reviewing and updating the Promotion & Tenure Guidelines to provide clarity and alignment at all levels.
