Female.............................9
Average MCAT.................512
Average GPA.....................3.9

As one of the nation’s oldest medical schools, the Medical College of Georgia at Augusta University has a long legacy of training outstanding physicians. One in five Georgia physicians have either attended MCG, or completed their residency at MCG/AU Health.

The 230 students admitted into the 2017 entering class are the latest individuals to join the MCG family. These exceptional students were selected based on a host of criteria including, but not limited to: academic metrics, intellectual curiosity, health care experience, leadership, and service to others.

The talented individuals that comprise the Class of 2021 are as diverse as the population they will one day serve and are reflective of MCG’s core values of: collegiality, compassion, excellence, inclusivity, integrity and leadership.
