Prerequisites for Admission to MCG:

BIOLOGY

- One academic year** of General Biology or Zoology with lab. (May substitute one academic year of advanced Biology courses, if placed out of General Biology with AP credit.)

CHEMISTRY

- Two academic years of Chemistry during college including at least 3 semesters of lab.
- Current Requirement - At least one semester must be Organic Chemistry, with one semester of Biochemistry strongly recommended.
- New requirement as of June 2017 - at least one semester of Organic and one semester of Biochemistry.
- New requirement as of June 2018 – Two academic years of Chemistry during college, including at least 2 semesters of lab, irrespective of AP chemistry taken in high school.

PHYSICS

- One academic year of Physics with lab.

ENGLISH

- One academic year of English for whatever portion in the academic year is required for the baccalaureate degree in an accredited college or university. (English-based composition, Writing, Literature or Communication also acceptable.)

STATISTICS

- Required as of June 2017.
- May choose Biostatistics

COURSES RECOMMENDED
• Cellular Biology, Molecular Biology, Immunology, Social Sciences, Humanities, Psychology, Behavioral Sciences, Anatomy, Physiology, Research.

**NOTE:**

• All required courses should be taken on a graduated grading scale (e.g., A, B, C, D, F) when possible. A pass/fail type system should not be used.
• Advanced Placement (AP) credits are acceptable on the basis that the credits are accepted by an accredited college and appear on its official transcript unless otherwise noted above.

**One academic year is equal to two semesters, three quarters, or two quarters and a semester.**
