

**MEDICAL COLLEGE OF GEORGIA
Academic Affairs**

LAPTOP COMPUTER STANDARDS, POLICIES, AND COMPLIANCE ACKNOWLEDGEMENT FORM

The Medical College of Georgia has minimum requirements for laptop computers for students who are part of the undergraduate medical education program. These requirements can be found here: <https://www.augusta.edu/mcg/laptop/requirements.php>

Students, during all years of the education program, are expected to have and maintain laptop computers that meet these requirements.

- Students will have their computers approved/checked off during a Technology session each year.
- IT will only provide technical support for computers that meet minimum requirements.
- The use of loaner laptop computers for exams will be limited to computer emergencies. • Students signing an attestation that they will have/maintain a computer than meets minimum standards.

At the beginning of each academic year, all medical students matriculating at the MCG main (Augusta) campus are required to complete an attestation that they have read and understand the minimum requirements for laptop computers and agree to maintain a computer that meets these requirements.

I have reviewed and understand the Laptop Computer Standards and Policies and agree to maintain a computer than meets these standards.
