Dropping a course:

Students may drop a course without penalty any time prior to 3 weeks (for Augusta based courses) or 6 weeks (for regional campus courses) from the start date of that course by appropriately submitting the designated Schedule Change Form. Unless the curriculum office has granted an exemption, dropping a course after this deadline will result in a “W” (withdraw) on the student’s transcript and the student will not be allowed to sign up for any other course during that month.

Dropping a Continuous Curriculum Elective:

All electives delivering instruction over a period longer than one month (examples: RADM 5020 and EMED 5008) must be registered for specific block on a student’s schedule even though instruction may begin before or end after the dates of the block in which the course is registered. Unless the curriculum office has granted an exemption, dropping a course after September 1 of the academic year in which the course is scheduled will result in a “W” (withdraw) on the student’s transcript.
