

**The Medical College of Georgia  
Academic Affairs Office**

**Narrative Assessment Policy**

A narrative description of a medical student's performance, including his or her non-cognitive achievement, is included as a component of the assessment in each required course and clerkship of the medical education program whenever teacher-student interaction permits this form of assessment.

Faculty are required to include narrative comments when completing the Clerkship and Enrichment Experience Grading/Evaluation form. Forms without narrative comments will not be considered complete.
