

Medical College of Georgia Academic Affairs

Phase 1 and 2 Campus Transfer Policy

The MCG Admissions Office makes pre-clinical campus assignments to Augusta or the Athens Partnership campus as a part of the admission process.

Students are eligible to petition for a campus change, only if the first-year of the curriculum is to be repeated. Upon being notified to repeat the first-year of the curriculum, students may be considered for campus reassignment.

A request for reassignment to the other campus under one of the following conditions:

1. Health concerns
2. Family issues including change in marital status
3. Academic poor performance that may be positively influenced by a change in campus
4. Extenuating circumstances

A student requesting re-assignment must first request a meeting with the Associate Dean for Curriculum or Associate Dean for Student and Multicultural Affairs at the campus where he/she is currently assigned.

The Associate Dean for Regional Campus Coordination, Associate Dean for Student and Multicultural Affairs, and Associate Dean for Curriculum review the request and make a recommendation to the Senior Associate Dean for Undergraduate Medical Education for consideration within two weeks of the original request from the student.

Re-assignment is made based upon the merits of the request, the availability of space at the appropriate campus, and the best interests of the student and MCG. The student is notified of the final decision in writing and if approved, the

appropriate offices are notified (registrar, student affairs, curriculum, etc.) Any costs incurred due to the reassignment are the sole responsibility of the student.
