All medical students participating in required educational experiences are engaged in educational environments wherein they are supervised by members of the faculty, and/or where present, residents. Faculty and residents are prepared for their roles as educators, and are aware of the educational program objectives, and the generally expected limitations of medical student ability by level. All medical students perform medical activities within their approved scope of practice and must seek assistance if faced with a medical circumstance that is beyond their skill level or comfort.

**Adherence to this policy is monitored by COC, reviewed on a biannual basis and modified as appropriate.**
