Asian Clinical Tropical Medicine Course

Bangkok, Thailand  June 10-19, 2018
Siem Reap, Cambodia  June 20-22, 2018

Join the Faculty of the Tropical Medicine at Mahidol University, the University of Ottawa, Augusta University, and the University of Minnesota as they co-host the 8th Asian Clinical Tropical Medicine Course in beautiful Bangkok, Thailand and Siem Reap, Cambodia. Healthcare providers with experience and/or special interest in clinical tropical medicine or infectious disease are invited to attend. The course consists of unique lectures, demonstrations, workshops, and clinical rounds in various hospitals in Thailand. Lectures, workshops, and demonstrations will involve the entire group. Clinical rounds will be in small groups. This course fulfills the hands-on/laboratory requirement to be eligible to sit for the ASTMH CTropMed® Exam. CME credit will be available.

Lecture topics to include:
• Clinical management of Malaria
• Diagnosis and Treatment of Leprosy
• Eosinophilia in Immigrants
• Lymphatic Filariasis
• Schistosomiasis
• Helminthiasis
• Travel Medicine for Southeast Asia
• Evaluation of fever in the tropics
• Refugee and Immigrant Health Care
• Overview of the Thai Healthcare System
• Thai Traditional Medicine
• Tropical Dermatology
• Rabies
• Venomous Snakes of Southeast Asia
