Oxidative Stress in the Pathophysiology of Gynecologic Disorders

Dr. Ghassan M. Saed is an Associate Professor in the Department of Obstetrics and Gynecology at Wayne State University School of Medicine in Detroit. He is an internationally renowned biomedical investigator, recognized for many scientific contributions in reproductive endocrinology, infertility, and gynecologic oncology.

Dr. Saed received his Ph.D. from the University of Essex, Colchester, UK, in 1986. He completed two years of postdoctoral training and a two-year fellowship in the Division of Hypertension and Vascular Research at Henry Ford Hospital, Detroit. He also completed a fellowship in immunopathology in the Department of Pathology at the University of Michigan, Ann Arbor.

Dr. Saed has over 20 years of experience in the pathogenesis of tissue fibrosis and cancer. He is extensively published and is dedicated to teaching M.D. and Ph.D. students, postdoctoral students, residents, fellows, and junior clinical and academic faculty. Residents and fellows join Dr. Saed’s laboratory to complete a research project during their training. Dr. Saed will assist in creating projects, clinical or basic science in nature, depending on the interests of the resident as well as writing abstracts, presentations, and grants.
