

AUGUSTA UNIVERSITY
**MEDICAL COLLEGE
OF GEORGIA**

2022 Match Report

Today we celebrate 221 of our remarkable students taking the next step in their careers as physicians, including 181 from MCG in Augusta and 40 from the AU/UGA Medical Partnership in Athens. These soon-to-be MCG graduates have been educated in all four corners of our state, including at our regional campuses in Albany, Rome/Dalton, and Savannah/Brunswick.

As of Match day, 98% of MCG's graduates have a residency position! This achievement will be widely celebrated by classmates, family, and faculty members. Our students' personal and academic accomplishments have placed them at top-tier residency programs across the country, including programs at the Medical College of Georgia. It comes as no surprise that we regularly hear from colleagues all over the United States how well our students are doing in their residency programs. We expect to hear great things about this year's matched students.

Such Match Day success is something we should all be proud of, and it is due in large part to not only our students' abilities, but the learning, care, mentorship, and support they have received from MCG's faculty and administrative teams, who are devoted to student success.

The MCG Office of Learner Affairs guides the important MSPE (Medical Student Performance Evaluation) process. MSPE letters are used by residency programs as part of the selection process. Associate Dean Dr. Nancy Havas (Augusta) and Assistant Deans Dr. Jennifer Tucker (Year 4 Class Dean, Augusta) and Dr. Robert McClowry (Student Affairs, Athens) lead the MSPE writing process. Assisting them is a team of MSPE authors and student advisors who met with each student this year.

What are our Students Doing?

In the PGY-1 year of residency, 58 (26%) of our students matched in Georgia! Of those, 24 (11%) will stay at an AUHealth/MCG or MCG-affiliated residency, including the Medical Partnership programs in Athens, and Wellstar/Kennestone in Atlanta.

Of note, 127 (57%) students matched into primary care residency programs *:

- 40 (18%) in Internal Medicine
- 27 (12%) in Pediatrics
- 19 (9%) in OB/GYN
- 17 (8%) in Emergency Medicine
- 10 (5%) in Family Medicine

- 9 (4%) in General Surgery
- 3 (1%) in Internal Medicine/Pediatrics
- 1 (<1%) in Child Psychiatry
- 1 (<1%) in Internal Medicine/Psychiatry

Georgia Board for Healthcare Workforce definition of primary care*

Next Steps after PGY-1 (Top 10)	#	%
Internal Medicine	40	18%
Pediatrics	27	12%
