41st Annual Marvin C. Goldstein Lecture Series
Expanding Horizons with Adhesive Dentistry
April 26, 2019

ABOUT

Dr. Marvin C. Goldstein was a noted Atlanta orthodontist and philanthropist who for 20 years sponsored an internationally renowned dental clinician to lecture at the Medical College of Georgia School of Dentistry. Dr. Goldstein believed the integrity of the dental profession could best be preserved by promoting clinical excellence and sharing information with colleagues. Following his death in 1997, Mrs. Rita (Goldstein) Wolfson arranged to perpetuate her husband’s contributions to the dental profession through a gift to Augusta University that will continue the Annual Goldstein Lectureship. Augusta University and the dental profession continue to be served through the generosity of the Goldstein Family.

GUEST LECTURER

Sillas Duarte, DDS, MS, PhD, Associate Professor and Chairman, Division of Restorative Sciences, Herman Ostrow School of Dentistry at the University of Southern California. Dr. Duarte is also Director of the Advanced Program in Operative and Adhesive Dentistry and the Director of the Master of Science degree in Biomaterials and Digital Dentistry. He is the editor-in-chief of Quintessence of Dental Technology (QDT) and serves on the editorial boards of several other journals. Dr. Duarte has lectured on and is published nationally and internationally on esthetic dentistry and adhesion. He has been involved in teaching cutting edge clinical techniques and technologies related to esthetic and adhesive dentistry. Dr. Duarte’s scientific work has been supported by governmental and commercial grants, and he serves as a consultant for several manufacturers. His research focuses on adhesive bonding to dental structures, composites, and ceramics.

COURSE DIRECTOR

Barry D. Hammond, DMD, Professor and Director of Dental Continuing Education at the Dental College of Georgia
Novel adhesive techniques and bonded restorations are able to provide patients, clinicians, and dental technicians with treatment alternatives that until recently would require invasive approaches and sacrifice of pristine dental structure. Through microscopic interaction between biomaterials and dental structure, highly-esthetic and long-lasting clinical solutions can be attained while simultaneously preserving the integrity of enamel and dentin. The adhesive revolution has overturned established dogmas and concepts by advancing our profession with groundbreaking, ultra-conservative philosophies that are supported by the sealing and reinforcement of dental tissues. However, as newer adhesive materials and technologies are introduced at a rapid pace, it is essential that clinicians and dental technicians become familiar with their indications and limitations to provide the best restorative strategy for each individual patient. This presentation provides a systematic and scientific approach for selecting esthetic treatment modalities using adhesive techniques and CAD/CAM materials based on original research data with special emphasis on minimally-invasive adhesive techniques for materials design and selection.

**OBJECTIVES**

At the completion of the course, participants should be able to:

- Review the indications and limitations of novel resin-based restorative materials
- Discuss the importance of microscopic interaction of adhesive materials with dental tissues
- Recognize challenges related to establishing a stable adhesive interface
- Select adhesive restorative materials for different clinical situations
- Discuss advantages and limitations of current in-office CAD/CAM materials

**TARGET AUDIENCE**

This program is designed for dentists and auxiliaries

**COMFORT ZONE**

Although every effort is made to have a comfortable temperature in the meeting room, we realize everyone’s comfort zone is different. Please bring a jacket or light wrap in case the room is too cool for your comfort.

**SPECIAL NEEDS**

The Augusta University Division of Professional and Community Education complies with the Americans with Disabilities Act. If you require special services, facilities or dietary considerations (vegetarian or otherwise) to support your participation in this continuing education program, contact the conference coordinator at 800-221-6437 or 706-721-3967.

CREDIT

The Dental College of Georgia at Augusta University is an ADA CERP Recognized Provider. ADA CERP is a service of the American Dental Association to assist dental professionals in identifying quality providers of continuing dental education. ADA CERP does not approve or endorse individual courses or instructors, nor does it imply acceptance for credit hours by boards of dentistry.

Concerns or complaints may be directed to the provider or to the ADA CERP at www.ada.org/cerp The Dental College of Georgia at Augusta University designates this activity for 5.75 ADA CERP continuing education credits. 1/01/18-12/31/21.

The formal continuing education programs of this program provider are accepted by AGD for Fellowship /Mastership credit. The current term of acceptance extends from 01/01/2018-12/31/2021.

REGISTRATION

The registration fee is $245 and includes lunch.

Please register online via credit card at: augusta.edu/pace/healthcare/dental/goldstein.php

For questions or registering via check please call 706-721-1490

LOCATION/LODGING

The program will be held at the Augusta Marriott at the Convention Center, 2 Tenth Street, Augusta, Georgia. For reservations at the Marriott, call 706-722-8900 and identify your group as “Augusta University Goldstein Program” to receive the special rate of $134.00. Our block of rooms will be released after April 10, 2019.

We Gratefully Acknowledge the Marvin C. Goldstein Family

DENTAL HOMECOMING EVENTS

Dental Hygiene Alumni Day
AU Alumni Center Ballroom
7:30 a.m. Registration and Continental Breakfast
7:45 a.m. Lectures

At this year’s Dental Hygiene Alumni Day, Jacquelyn L. Fried, RDH, MS will present “HPV: A Cause for Concern”, and Carol A. Jahn, RDH, MS will present “That’s Not What I Learned in School: What Successful Practitioners do Differently”.

The Dental College of Georgia 50th Anniversary
Friday, April 26, 2019
Augusta Marriott, 6:00 p.m. – 9:00 p.m.
Dental College of Georgia 50th Anniversary Celebration
We encourage all classes to consider this a reunion year and join us in honor of the 50th Anniversary of the Dental College of Georgia. Gather with fellow alumni, faculty, staff, students and friends to celebrate the 50th Anniversary of The Dental College of Georgia. Enjoy cocktail hour from 6:00 – 7:00, with a seated dinner to follow in the ballroom. We will celebrate Distinguished Alums, Outstanding Young Alums, Jag20 recipients, Emeritus Faculty, and the first graduating class of 1973.
Cost: $50 per person or $500 for a table of 10
Dress: Business Attire
All classes are invited to celebrate 50 Years of Building Smiles this year!
For more details please visit augusta.edu/dcg/50

SAVE THE DATE FOR UPCOMING CDE

Clinical Advances in a Restorative Practice
May 25-27 ~ Omni Hilton Oceanfront, Hilton Head Island, SC

Symposium on General Dentistry
June 30 – July 6 ~ K and P Resort, St. Simons Island

Dental Hygiene Symposium
July 19-21 ~ Savannah Marriott, Savannah, GA

New Therapies and Current Controversies in Dentistry
July 19-21 ~ Kiawah Island Resort, SC

Lasers for Hard and Soft Tissues: Hands-on Workshop
August 9-10 ~ Augusta University, DCG

Cone Beam Computer Tomography
September 27 ~ Snelling Center, Augusta, Georgia

Pediatric Dentistry at the Beach
October 4-6 ~ Omni Hilton Oceanfront, Hilton Head Island, SC

Update for the Dental Practitioner
October 11-13 ~ Brasstown Valley Resort, Young Harris, GA

Last Chance CDE
December 5-6 ~ Augusta University, Education Commons
