## REQUEST FOR TRUSTWORTHINESS AND RELIABILITY DETERMINATION – POLICE OFFICER

FROM: \_\_\_\_\_(Supervisor and Organization)

THRU: Philip Maguire, Radiation Safety Office, CI-1002

THRU: Dena Pickett, Reviewing Official, Human Resources

THRU: Philip Young, DABHP, Radiation Safety Officer, CI-1002

TO: Trustworthy and Reliable File

DATE: \_\_\_\_\_

### **Supervisor**

In accordance with the USNRC rule 10CFR37, *Physical Protection of Category 1 and Category 2 Quantities of Radioactive Material*, I request a Trustworthy and Reliable determination for the employee named below for the purpose of accessing radioactive sources of national security concern. Fingerprinting, identification, and history checks are not required for sworn police officers. An officer profile report affirming that the applicant is a certified law enforcement officer is attached. A copy of the Georgia Crime Information Center Policy Manual detailing the annual checks required for police officers is attached. The annual checks include the FBI Interstate Identification Index, First Offender Information, and the Georgia Computerized Criminal History Database. I am not aware of any adverse information that would preclude a determination of trustworthiness and reliability. I will notify the Radiation Safety Officer when the employee is no longer under my supervision.

Employee Name (print): \_\_\_\_\_

Signature: \_\_\_\_\_  
(Supervisor)

Date: \_\_\_\_\_

### **Reviewing Official**

The verifications listed above have been made. Based on the above verifications, I approve the above named employee for unescorted access to radiation sources in “quantities of concern.”

Signature: \_\_\_\_\_  
(Reviewing Official)

Date: \_\_\_\_\_

### **Radiation Safety Officer**

The verifications listed above have been made. Based on all available information, I approve the above named employee for unescorted access to radiation sources in “quantities of concern.”

Signature: \_\_\_\_\_  
(Radiation Safety Officer)
