PROCESS & PROCEDURES

Relocation and moving expenses for newly hired faculty and staff may be provided if funds are available in the department or school/college/unit budget. Payment or reimbursement of personal relocation and moving expenses for existing employees is allowable if the relocation creates an advantage for Augusta University and has been appropriately approved. In addition, a specific dollar amount must be set out in the original written offer of employment. In the case of existing employees, the policies outlined by the State of Georgia Office of Planning and Budget should be followed. These policies are available at: [OPB State Policies–Relocation](#).

Individuals receiving the benefit of relocation and moving expenses should be aware of any personal income tax implications and should consult a tax professional with personal tax questions. For the years 2018 – 2025, *all* relocation and moving expenses are classified as “Non-Qualified” (taxable) regardless of the nature of the expense. Please refer to IRS Publication 521 for additional details. By accepting the offer of Relocation Assistance, employee confirms understanding that all reimbursement for moving expenses is taxable; and he/she is responsible for paying the tax.

Per IRS guidelines, a reimbursable move must meet the following criteria:

- The move must be closely related, both in time and in place, to the start of work at a person’s new job location.
- New workplace must be at least 50 miles farther from the employee’s former home than the old workplace, *AND*
- Employee must work full-time in the area of the new workplace for at least 39 weeks during the 12 months immediately after the move.

Eligibility

Written Letter of Offer:

Payment and/or reimbursement of relocation and moving expenses is allowable when expenses are included as a formal and specific component of the written offer of employment made to the qualified

applicant (the employee) and accepted by the employee in connection with employment at the University. To be eligible for relocation and moving expense reimbursement, the employee's relocation must meet the following conditions:

1. *Availability of Qualified Applicants* – The employing department must determine that the employee is the best qualified applicant available for the position.
2. *Full-time Position* – The employee must be assigned to a full-time, salaried position and must have agreed to work on a full-time basis for at least one year. (See page 5 for academic year faculty.)
3. *Distance* – the distance between the employee's new work location and the former residence must be at least fifty (50) miles greater than the distance between the employee's old work location and the former residence.
4. *Time* – The IRS regulations state the employee must work full-time at least thirty-nine (39) weeks during the first twelve (12) months after relocating.
5. If the *employee's spouse or partner* is a State employee and otherwise eligible for moving and relocation expenses through the University or other State of Georgia agency, reimbursements of any moving or relocation expenses will be paid only once to move the primary household to the new location.
6. Relocation for current employees is allowable in situations where the *employee is reassigned* and the relocation is in the best interest of the institution. In such cases, approval of the Executive Vice President, Finance/Chief Business Officer is required and the following policy should be used: [OPB State Policies-Relocation](#).

Relocation and Moving Expense Agreement

To be reimbursed for moving and relocation expenses, the employee must accept the Letter of Offer and execute a Relocation and Moving Expense Agreement with the University **prior** to incurring any expenses. No University obligation exists, nor may any reimbursements be processed, until all parties execute the agreement.

The Relocation and Moving Expense Agreement will be signed by the employee, Department Head, and Dean or Vice President. Departments may commit reasonable amounts for an employee's relocation and moving expenses in accordance with this policy and procedure. For relocation and moving expense budgets of \$15,000 or more, approval from the Executive Vice President, Finance/Chief Business Officer is required.

Relocation and moving expense budgets include amounts reimbursed to employees and the direct payment by the University to third-party moving companies. The Relocation and Moving Expense Agreement will stipulate that:

1. The employee must remain employed on a full-time basis for at least one year (twelve months), commencing on the date that the employee starts work at the University. For faculty appointed on an academic year basis, one year is defined as two consecutive regular academic sessions of fall and spring or spring and fall semesters equal to nine months of employment. If the employee fails to remain employed for the obligated one year of service, the hiring department is required to immediately notify the Payroll department so that agreed upon deductions can be processed in a timely manner against remaining payroll payments. If payroll deduction of these expenses cannot be achieved, the employee will refund to the University the gross amount of moving and relocation reimbursed directly to the employee as well as the gross amount of any payments made for the benefit of the employee to third parties. The hiring department is responsible for collecting any refund from the employee which cannot be deducted in payroll processing. Unsuccessful efforts to collect the refund after thirty (30) days from the employee will be referred to the University Accounts Receivable Department for further collection efforts including referral to an outside collection agency if needed. Refunds collected through payroll deduction or directly from the employee will be returned to the original funding sources, including University foundations. Failure to repay these expenses as agreed due to the breach of contract may result in legal action to recover money being taken against the employee. As part of this agreement, the employee agrees to pay all collection costs including attorney fees and other charges necessary for the collection of any amount still due to the University.
2. Repayment of relocation and moving expenses by employees who do not remain employed for a full year may be pro-rated or waived if the University employment is terminated for reasons beyond the employee's control and found acceptable to the University, unless grant funds are used to support the relocation and moving costs. Any such waiver must be approved in writing by the Executive Vice President, Finance/Chief Business Officer. Should the repayment be pro-rated, failure to repay the pro-rated amount may result in legal action to recover money being taken against the employee. As part of the agreement, the employee agrees to pay all the collection costs including attorney fees and other charges necessary for the collection of any amount still due to the University.
3. The IRS requires employees to work full time for at least thirty-nine (39) weeks during the first twelve (12) months after relocating in order to claim appropriate payments/reimbursements.

Payment/Reimbursement Rules and Guidelines

When possible, relocation and moving expenses such as payments to commercial movers, storage facilities, etc., should be paid directly to vendors. Reimbursements are limited to actual costs incurred up to the amounts agreed to by the department and the employee within the limits outlined in this policy. Reimbursements through other processes, such as petty cash or purchasing cards (P Cards), or direct payments to hotels, airlines, restaurants, car rental companies, or other vendors on behalf of employee which are processed outside of this policy and associated procedures are not allowed. **To be eligible for reimbursement, expenditures must be reasonable, necessary, and incurred after the employee**

executes a Relocation and Moving Expense Agreement (*see #2 above under Relocation and Moving Expenses Agreement*). In accordance with IRS guidelines, receipts should be submitted within sixty (60) days of completion of the move. All relocation and moving expenses are taxable and all documentation is open for public examination. University employees and management should take necessary steps to ensure that all reimbursements and payments are thoroughly documented and reviewed in each case.

Funding:

In general, most sources of funding available to departments can be used to pay relocation expenses. There are certain notable restrictions which should be considered:

1. When using AU restricted accounts funded by one of the University’s cooperative units, the underlying fund agreement must allow for payment of relocation expenses.
2. Grant funding may be utilized only if allowed under the terms of the award or contract. Grants may include limitations on amounts for relocation expenses or may have limits on payment of certain types of relocation expenses. Any relocation expense charged to a grant account must meet the requirements of the grant and or the requirements of the funding agency or sponsor.
3. Conference and Workshop accounts, agency accounts, and student activity fee or technology fee accounts should not be utilized to pay relocation expenses.
4. Departmental Sales and Service accounts should only be utilized in those situations where the employee’s work is directly associated with the sales or service operation and when the expense can be supported by the budget of the operation.

Reimbursable Moving Expenses:

All direct payments to vendors and reimbursements to employees will be processed through the Payroll Department. Please submit claims for reimbursement on the Employee Request for Reimbursement of Relocation and Moving Expenses form (see attached). Payments will be made in accordance with the Internal Revenue Code and Internal Revenue Service Regulations. For the years 2018 – 2025, all relocation and moving expenses are classified as “Non-Qualified” (taxable) regardless of the nature of the expense. Please refer to IRS Publication 521 for additional details. By accepting the offer of Relocation Assistance, employee confirms understanding that all reimbursement for moving expenses is taxable; and he/she is responsible for paying the tax.

Expenditures to be reimbursed must be reasonable and necessary. Employees must execute the Relocation and Moving Expense Agreement **prior** to incurring any charges for payment or reimbursement. Augusta University has an “Accountable Plan” under IRS guidelines (see Definitions) and, therefore, requires employees to adequately account for their expenses within sixty (60) days after they were paid or incurred. The total dollar limit for gross reimbursements made directly to the employee for all expenses, reimbursements and direct payment to third parties, may not exceed the

amount stated in the Relocation and Moving Expense Agreement. Gross reimbursements (i.e. actual reimbursements received by the employee or paid to third parties on behalf of the employee) include any taxes withheld on these reimbursements.

In accordance with the current IRS guidelines (2018-2025), payment or reimbursement of all relocation and moving expenses allowable under this policy will have appropriate taxes withheld. For further guidance see: IRS.Gov, Publication 521.

When the employee and household are traveling to the new home, expenses for in-transit meals and lodging will be reimbursed, subject to tax withholding.

Common Carrier Moves: The actual costs paid for common carrier transportation of the employee’s household goods and personal effects from the former principal residence to the new residence at the new work location are reimbursable and are not subject to tax withholding. If a common carrier is used, the amount of the actual costs is allowed and is included in the total budget for relocation expenses as stated in the Relocation and Moving Expense Agreement. If the cost of the moving service from the common carrier is less than \$5,000, the employee may choose the moving agent in consultation with the hiring department. If the cost of the move is \$5,000 or more, the hiring department, in conjunction with the employee will submit a purchase request to Procurement to select a vendor.

2. Self-Moves: If the employee chooses to move himself/herself, the maximum of actual costs allowed for reimbursement must be included in the Relocation and Moving Expense Agreement. These expenses are paid on a reimbursement-basis only from the employee's original receipts. The following actual costs are reimbursable, within the total limitation, with appropriate documentation:

1. **Moving vehicle rental** – Costs of renting a moving van, truck, trailer, hand truck or other appropriate moving equipment, vehicles and supplies are reimbursable. A car or truck with a trailer in tow will also be reimbursed at the mileage rate specified in the current IRS regulations.

This amount is includable in the Relocation and Moving Expense Agreement limitation. Taxes will be appropriately withheld from all associated storage expenses.
