

**Student Presenters:**

Evan Monson – Medical College of Georgia

**Mandatory Forum Evaluation:**

Students will receive an email with a link to the mandatory evaluation form for this program.

Please complete the survey by September 8 2017.

**Code of Professionalism\***

To ensure the highest standard of care to all, I WILL:

- \* Demonstrate respect for my patients, peers, and faculty
- \* Recognize the limits of my abilities and increase my knowledge and skills throughout my professional life
- \* Work collaboratively with colleagues in all health professions to promote high-quality patient and family care
- \* Practice my profession with integrity, honor, and transparency
- \* Conduct myself to reflect the larger community I represent

As an aspiring health professional, I freely take this oath and upon my honor, I pledge my assistance to those who do the same.

\* written by an interdisciplinary group of health science SGA representatives

# Professionalism Forum 2017

Our Responsibility to Patients, Families,  
Communities, and our Professions

**Christenberry Fieldhouse**

3109 Wrightsboro Road  
Augusta, GA 30909

## Augusta University Professionalism Forum Purpose

The Professionalism Forum is an annual program for all new students in the health sciences. The forum introduces several universal concepts of professionalism in health care and research including: Service, Leadership, Conduct, Patient- & Family-Centered Care, Cultural Competency, Collegiality, Respect, and Personal Accountability. Students must be prepared to handle many of the same difficult situations and dilemmas as working professionals in the health sciences. We challenge you to start thinking and acting professionally as you begin the formative part of your careers.
